(Reading)

1 **Read the following passage carefully and answer the questions given below it:** **1×5=5**

Modern etiquette is an art. It has been cultivated by persistent practice. The first requirement of good etiquette is a pleasing personality, which includes a good dress in tune with times. After these basic requirements are in the place, the person desiring to learn the art of etiquette must develop the power of speech to be a good communicator. He must have a smooth accent in the language in which he converses. Modern etiquette includes having a clear idea of the day-to-day topics and happenings in the society or in the community in which one lives. These ideas enable a person to be interesting and entertaining at various functions, dinners, evening parties or in the clubs. To be sociable is a great asset in society. A sociable man being popular, can crack good jokes when there is an occasion for him, can raise interesting issues for discussion and wins friends and admirers.

2 Read the following passage carefully and answer the questions given below it: 1×5=5

Emperor Ashoka was one of the earliest Indian monarchs who planted shady trees on roads and in public places. The Moghuls, too, realised the necessity of shade on the roads which they constructed. But there was no conscious planning; and peepal, banyan and pakur trees were indiscriminately mixed with neems, tamarinds and mahuas. It was only in Kashmir that they showed some preference for planning and planted magnificent avenues of Chinar along the banks of river Jhelum, which can be seen at their best at Gandharbal and Matan on the way of Pahalgam.

A plantation plan for our national, state and district highways is urgently needed. At present, our roads are made by the P.W.D. engineers who are ignorant of trees. Ultimately the planting of new trees and replacement of dead trees is left to gardeners alone who plant any tree which comes handy. The result has been unfortunate and our roadside avenues have become a mixture of odd trees.

Questions :

(i) **Who was Ashoka ?**

(a) a gardener (b) an Indian monarch

(c) a Mughal emperor (d) an actor

(ii) **Where did emperor Ashoka plant the shady trees ?**

The heart is one of the most important parts of the human body. The heart of human body has the continuous job to keep oxygen-rich blood flowing through the body. All the body's cells need a constant supply of oxygen, particularly in the brain. The brain cells live only four to five minutes after the oxygen is cut off and death comes to the entire body. Heart disease can result from damage to the heart muscles, the valves or the pacemakers. If the muscle is damaged, the heart is unable to pump properly. If the valves are damaged, blood cannot flow normally. Dr. John Gibbon of U.S.A. developed a machine in 1953 that could take over temporarily from the heart. Surgeons had the chance to repair or replace a defective heart. Many patients have had plastic valves inserted in their hearts when their hearts were faulty. Many people are now being kept alive with tiny battery-operated pacemakers.
